

## 2011 Price List for Broadcast Products

Protective Bags & Cases for your Equipment

GBP (£) Edition

# Aluminium Cases

## Camera Cases

Broadcast range aluminium cases are designed for specific cameras and equipment.

Manufactured from 2 mm rigidised aluminium, with a welded (not riveted) construction, these cases have indented corners and rounded edges to provide maximum strength with safe handling.

Internal foam cushioning, dividers and pockets provide superior shock absorbing qualities.

# Peli Cases

## Injection Moulded Protection

If you're looking for unbreakable protection from your case as well as it being air and water tight then Peli offer the best solution around.

Peli cases come with automatic purge valves to equalize after changes in atmospheric pressure. Peli cases are also resistant to most chemicals keeping your valuable equipment safe.

There is a wide variety of sizes available, with wheel options available on the larger cases.

For complete piece of mind Peli cases can also be fitted with custom cut foam designed specifically for your camera, offering total protection.

# ProBag

## Protective Camera Bags

The ProBag range of camera bags for broadcast professionals was launched after extensive consultation with equipment manufacturers and end-users. It has taken the broadcast industry by storm.

ProBags are manufactured in blue, 1000 denier heavy-duty weather-resistant texturised nylon fabric.

The all-new design "Quickship" bags have a rigid internal frame. They are padded internally and externally, with partitions and pockets.

The result is a lightweight bag offering a high level of impact protection.
