

ProCase

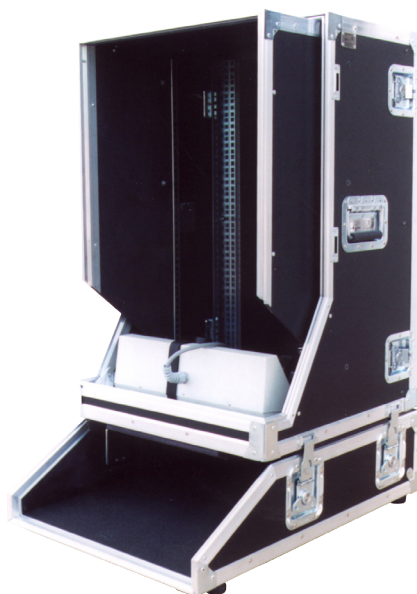

Laminated ply transit cases

Not to be confused with inferior imitations, the CP ProCase draws on 35 years of case making experience to provide a long-lasting, rugged flight case for multiple trips with heavy payloads.

Using only the finest Finnish birch plywood and rigorous, bifurcated rivet construction, CP can build customised flight cases and 19 inch racks to meet complex and demanding requirements.

CP ProCase and ProRack were specified by Sony in a special suite of cases and racks (shown below) to produce a demonstration kit for Sony Sonaps equipment that can be shipped anywhere round the world at short notice.

Please request a separate brochure for details of ProRack or download one from www.cpcases.com.

Maximum Protection

- Built from 9mm top grade Finnish birch plywood for maximum life.
- All edges glued and pinned before riveting to edge sections for superior strength.
- Choice of edge sections – black abrasive-resistant vulcanised fibre or aluminium.
- Available in a range of colours in High Pressure laminate or PVC laminate.
- Knuckle sprung corners, cam operated butterfly catches and fully sprung handles add to the near indestructibility of this case.

ProCase

Options

- Custom-built foam interiors.
- Silk screen printing for corporate branding.
- Panel mounts.
- 19" rack frames (see separate brochure).
- 100 mm detachable swivel castors, with and without brakes.
- Wheel boards in 18 mm ply with 100 mm castors.
- Recessed castor dishes to locate wheels when stacking.
- Loading shackles.
